INTRODUCTION

The San Francisco Chamber of Commerce publishes this "Directory of Manufacturers" in pursuance of its policy to give the widest publicity to the manufacturing resources of the San Francisco District.

It shows that a large number and variety of articles are manufactured in and near San Francisco and offers conclusive evidence of the advantages of the district as a location for industrial plants.

As a buyer's guide it will be invaluable to those desiring to purchase manufactured articles in this market, and it will bring the factories in closer touch with sources from which their vast quantities of raw material must be obtained.

In compiling this Directory the utmost care has been taken to include in it every person, firm or corporation doing a manufacturing business, as defined by the United States Census Bureau, and having an office in San Francisco and a factory in the city and county or anywhere in the State of California. If errors have occurred, they will, on proper notification, be corrected in supplementary and subsequent editions which will be published from time to time.

INDUSTRIAL COMMITTEE
SAN FRANCISCO CHAMBER OF COMMERCE
